Also, Jim Z., let Jeff or me know if you want to discuss anything related to managing any media that show up at the open houses. I'm guessing they'll be there. For example, I would suggest picking one of our RPMs as a spokesperson, so we have single voice.

Hope the meetings turn out well.

Hello, all –

I suggest that we go through these tomorrow at our open house check-in meeting at 9am.
But if you need anything from me on this before then, please let me know.

Cheers – Julie

....by working with them on how to answer these TPs we've heard?

Upon discussing my talking points(attached) for the upcoming EMF meetings, Jeff raised the excellent point: The messages I helped refine were good, but they did not exactly answer the assertions raised in one of the earlier e-mails we saw....

“...at Simplot they are allowing them to expand their massive waste pile closer to the Reservation Boundary.”

“FMC will be starting up again this Spring where crushing slag is going to be part of the capping process.”

After conferring with Beth, we agreed that both Jannine and Jonathan undoubtedly have the technical information needed to address these concerns, but that it would be helpful if you could walk them through a dry run of how they might answer if these issues are raised at the meetings...

I am out on A/L beginning tomorrow and won't be back until the 11th.

Thanks!

MM
